Mr. Donald Greenfield
Operations Manager
Forest Medical, LLC
6700 Old Collamer Road
East Syracuse, NY 13057

Dear Mr. Greenfield,

I just wanted to write to you to let you know how pleased we have been with the Trillium Holter system that we purchased from you 2 years ago. I had never heard of Forest Medical when I found the system on the Internet. We are a small rural critical care access hospital and do not routinely purchase new equipment. I tested over 8 different Holter systems ranging in price from slightly less than your unit to 4 times the price of your unit, and in every area we tested, the Trillium Holter system was consistently in the top three of every category.

After using the units now for 2 years, I can say that this was one of the best equipment purchases we have made. We have had zero problems with the units, have had very good personal service, and because of the Trillium's low cost we reached break-even in just 7 months of use!

For anyone in the market for a quality Holter system, I highly recommend Forest Medical Holters.

Sincerely,

A handwritten signature in cursive script that reads 'Jay Schaefer'.

Jay Schaefer
